

## EasyTAXI - Airport charts for AirNav Pro

*Date published: 26 May, 2015*

---

We are excited to announce our latest project **EasyTAXI** airport charts provided as a free update to the **Greece Hellenic Terminal Area** charts of AirNav Pro for the following 28 Hellenic airports:

Andravida, Alexandroupoli, Eleftherios Venizelos, Almiros, Chios, Ioannina, Iraklio, Kefalonia, Kalamata, Kos, Kerkyra, Kavala, Limnos, Larisa, Megara, Mikonos, Mitilini, Preveza, Rodos, Araxos, Santorini, Skiathos, Samos, Skyros, Syros, Thessaloniki, Tatoi and Zakynthos.

The project started some months ago and every airport chart was created from scratch by Cpt Magafas Makis, who deserves the credit.

We are sure airplane pilots will find them really useful since they land more often to airports ...!!!

If you already have the **Greece Hellenic Terminal Area** Charts, just update and you are ready. (Within AirNav Pro goto Configuration > Add-one (Map Store) > Installed products, the Greece Hellenic Terminal Areas should be red showing "Updates", click and select Install Updates)

Last but not least: ALL CHARTS ARE DISPLAYED ON THE MAIN MOVING MAP OF AIRNAV PRO

Some examples (in low resolution):
