

“Log Hours” Application for the iPhone

Date published: 29 November, 2009

 [Log Hours](#) for the iPhone is now available on the [Apple Store](#).

Flying an aircraft as a pilot one needs to log flight hours in a logbook. Even as a crew member or mechanic one needs to keep track of hours.

Doing so errors can occur while with the Log Hours, an application that efficiently and automatically adds up or subtracts hours and minutes for you.

Straight forward, simple and easy to use just like any calculator.
